

## Summary for children and young people

Name: Adopt Together

URN: SC048470

Date of inspection: 03 December 2018

Hello!

I recently came to inspect Adopt Together (you may know it as Faith in Families). While I was there, I was privileged to meet with a small group of children who were able to give me their views of the adoption service. I would like to say a big thank you to them for sparing time after school to speak to me.

I have judged that the service they provide for you and your families is outstanding.

I could see that staff work really hard to support you and your parents. We heard how well you were doing with your new families.

One of the very best things about the agency is that the staff really care about the children they work with. They work hard to get them the very best help, support and family that they can.

I am really pleased that you have been helped by such a good agency. If you want to know more about what I found, you can ask the agency or your parents for the full inspection report that I have written.

I wish you all the very best for your future.

Anne

Inspector
